**Deciphering Your Assignment**

What is the most important step to take after receiving an assignment?

A. Figuring out which databases to use for research  
B. Assess the document and note important details to use for planning  
C. Put the due date onto your calendar  
D. Go to the library

Planning ahead can help to prevent:

A. Stress  
B. A bad grade  
C. Wasted time  
D. All of the above

Some assignments include background information or context. This is fluff and you should probably just ignore it.

A. True  
B. False

Notes from class may be helpful to:

A. Remember key details about an assignment  
B. Provide background information on the assignment topic  
C. Find references to important resources  
D. All of the above
