Internet Searching Tips

Google will search for ALL of the words in the following phrase entered into the search box:
gone with the wind

A. True
B. False

Which of the following statements is TRUE?

A. The more results you get on Google, the better your search was.
B. When searching with Google or other internet search engines, it is best to use broad terms.
C. When searching with Google or other internet search engines, it is best to use specific terms for a narrow search.
D. If you type words next to each other, Google will search for them next to each other.

How do you combine words into a phrase so that Google searches for them together?

A. Use dashes to connect them.
B. Put quotation marks around the phrase.
C. Type in all caps.
D. You don’t have to do anything. If you type them together, Google will search for them together.

You can limit the results of your search by date in Google’s advanced search.

A. True
B. False
